

## **REMARKS**

### **Information Disclosure Statement**

An IDS is filed herewith citing documents from the International Search Report in the corresponding European application, i.e., WO 02/04429 and WO 01/72717, whose US equivalents are US 6,908,920 and US 6,906,065, respectively.

### **Claim Objections and Rejections Under 35 USC 112, first paragraph**

The objections and rejection under section 112 are moot in view of the amendments.

### **Rejections Under 35 USC 102**

These rejections are moot in view of the amendments.

### **Rejections Under 35 USC 103**

These rejections are moot in view of the amendments.

Even the broadest definitions of the compounds in US '599, DE '650, US '338 do not include compounds of the present claims.

The broad disclosure of the compounds disclosed by generic formula I, i.e., of R<sub>a</sub> through R<sub>e</sub>, of US '359 spans nearly 20 pages, see pages 2-21. One of ordinary skill in the art would not be motivated from this broad disclosure to prepare compounds of the present claims.

Compounds 147 and 316 were found in paragraphs [1071] and [1402] of the reference, respectively, and each of these compounds differs from the compounds of the claimed invention in several respects. See, e.g., the definitions of A, B and R<sup>1</sup>, etc., of the present claims. The claimed compounds are not obvious from this disclosure of the reference either.

Applicants also ask for clarification of the additional compounds pointed out by the Office Action, i.e., "answers 819, 842, 869, 901, 907, 910, 912, 913, 924, etc." if the rejection is maintained. These compounds were not found in the disclosure.

The Commissioner is hereby authorized to charge any fees associated with this response or credit any overpayment to Deposit Account No. 13-3402.

Respectfully submitted,

/Csaba Henter/
